

Full Stack Intern

Company: NXUS

Location: Pune / Hybrid

Employment Type: Internship

Duration: 3 Months

Department: Technology / Product Development

Reporting To: Full Stack Developer / Technical Lead

About NXUS

NXUS is a growth-driven company focused on helping businesses create meaningful connections and achieve measurable results. We foster a collaborative environment where learning, innovation, and professional development thrive.

Role Overview

We are seeking a motivated **Full Stack Intern** to support our development team. This role offers hands-on experience in frontend and backend development, debugging, testing, and working on live web applications.

Key Responsibilities

- Assist in building and maintaining web applications.
- Work on both frontend and backend tasks.
- Support API integration and database-related tasks.
- Debug issues and help improve application performance.
- Collaborate with developers on feature development and testing.
- Assist in documentation and code maintenance.

Requirements

- Pursuing or recently completed a degree in Computer Science, IT, or a related field.
- Basic knowledge of HTML, CSS, JavaScript, and one backend language.
- Familiarity with frameworks such as React, Node.js, or similar is preferred.
- Understanding of databases like MySQL or MongoDB is a plus.
- Strong problem-solving skills and eagerness to learn.
- Good communication and teamwork skills.
